## PROFESSIONAL RESUMÉ

Three-decade experience as aviation professional in Flight Safety, Quality Management, Airline Management, Maintenance Organizations and Aerodromes Management. My expertise comprises having performed functions for various local aeronautical service providers, including the Civil Aviation Authority (DGAC) of my country, as Inspector of Accident Prevention, AVSEC and Dangerous Goods, as well as air carriers abroad.

## DESIGN OF SMS MANAGEMENT TOOL

- *Top Cream Companies*  
<https://sromerov.wixsite.com/tw/whitestworeds/post/top-cream-safety-organizations>

## ARTICLES I WROTE:

1. The SMS does not exist in my company!
2. Safety & Production.
3. My SMS tool is not calibrated.
4. Dormant conditions will ever wake up?
5. The SMS center of gravity shifted in my company!
6. How to achieve an operational SMS?
7. It is possible to work on latent conditions.
8. How organizational is this event?
9. Compliance and management are not always aligned.
10. Documented procedures and the operation.
11. How accountable are you for the?
12. What is the source of all this?
13. Tips to tear the work environment down.
14. Unsafety-based Management.
15. Is it possible to deviate from regulations? Does someone have to fulfill them?
16. Safety is not romantic.
17. Safety swept under the rug.
18. Let's fly safe for them!
19. Unsafety is as systemic as safety.
